

# **TEKNOFEST 2025 TECHNOLOGY COMPETITIONS APPLICATION GUIDE**

*Applications are now open for the largest prize-winning technology competitions organized within the scope of TEKNOFEST, which aims to raise awareness about technology and science throughout society and increase the number of skilled professionals in science and engineering!*

*To be a part of the TEKNOFEST Aerospace and Technology Festival, follow the application steps below to apply for a competition in your field of interest.*

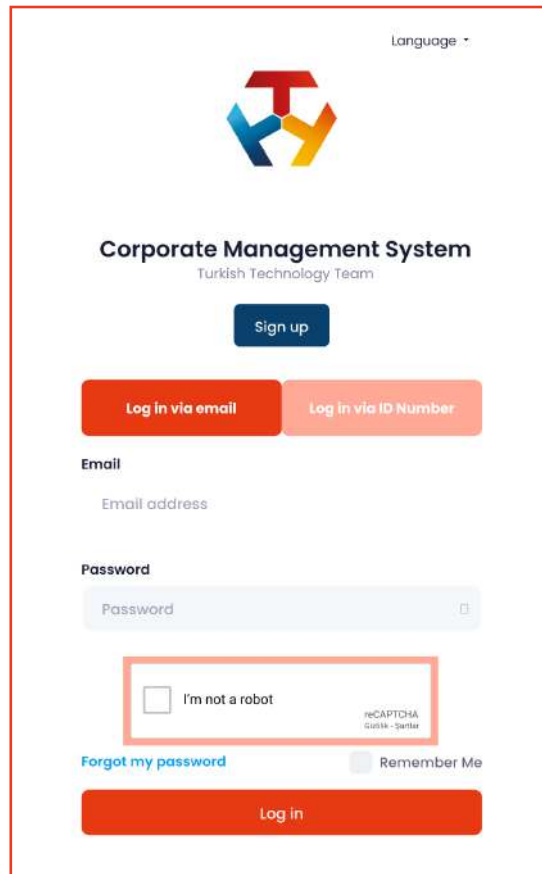

## TEKNOFEST 2025 TECHNOLOGY COMPETITIONS APPLICATION GUIDE

The TEKNOFEST Technology Competitions applications are managed through the T3 Corporate Management System (T3CMS - t3kys.com). The competition process and document submissions are conducted via this system and having a T3 CMS account is required to apply for the TEKNOFEST Technology Competitions. The application steps are given below.

STEP  
1

### CREATE MEMBERSHIP!

To apply for any TEKNOFEST competitions through the CMS, you must first create a profile. If you already have a profile in the CMS, you can access the login page using the link: [www.t3kys.com](http://www.t3kys.com). There are two login options available: **Login with e-mail** and **Login with Turkish ID Number**. Simply select one of these options to log in.

The screenshot shows the login page of the T3 Corporate Management System. At the top right, there is a "Language" dropdown menu. The T3 logo is centered at the top. Below the logo, the text "Corporate Management System" and "Turkish Technology Team" is displayed. A "Sign up" button is located below the text. Two buttons are available for login: "Log in via email" and "Log in via ID Number". Below these buttons, there are input fields for "Email" (with a placeholder "Email address") and "Password". A reCAPTCHA widget is present, with the text "I'm not a robot" and "reCAPTCHA quick-start" visible. Below the reCAPTCHA, there are links for "Forgot my password" and a "Remember Me" checkbox. At the bottom, there is a large red "Log in" button.

If you do not have a profile yet, you can create one by clicking the **"Sign Up"** button on the login screen. On the registration form, you are required to fill out the **Panel Information, Personal Information, Address Information, and Education Information**. After completing all the fields accurately, check the box to confirm **"I have read, understood, and accept the Consent Form regarding the Protection of Personal Data."** Then, click **"Become Member."** You can then log in using the information you provided during registration.

STEP  
2

## FORM A TEAM!

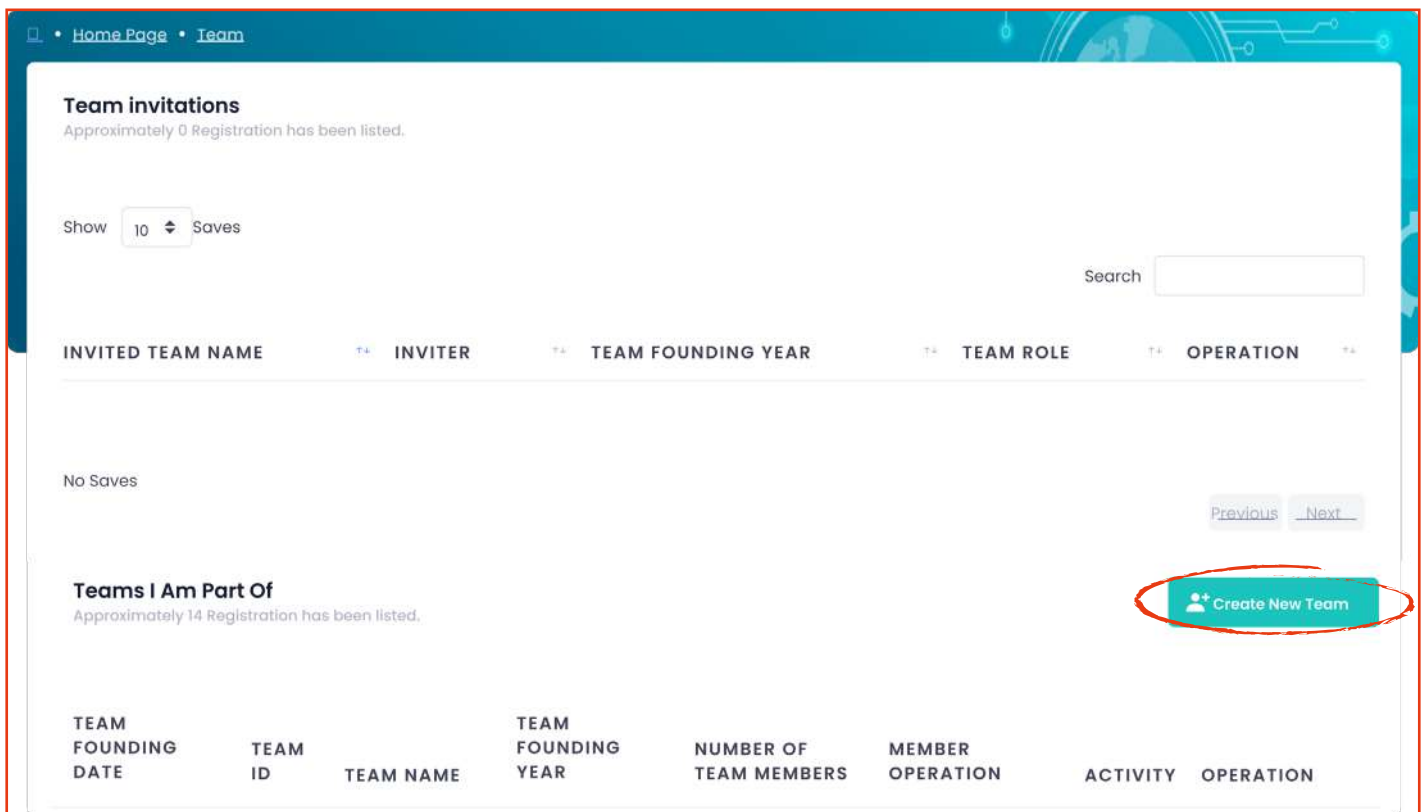

Before applying for TEKNOFEST Technology Competitions, each participant, even if applying alone, must form a team, as user applications are not accepted. You can update your team members later, but first you need to form your team and complete your application. This option will be available for a period specified by TEKNOFEST after the application process ends. You can follow the steps below to form a team.

The screenshot displays a user interface for the TEKNOFEST 2025 application process. At the top, there are four navigation tabs: "My Applications", "Team Information", "My Certificates", and "Profile". The "Profile" tab is active, showing a user profile with the username "UN". Below the profile, there is a list of menu items: "My Applications", "Reset Password", "Team Information" (highlighted in red), "Messages", and "My Daily Activities". The main content area features the TEKNOFEST logo and the text "TEKNOFEST 2025" and "Click to apply." Below this text is a prominent yellow "APPLY" button.

After logging into T3 CMS, click the "My Profile" button in the top right corner and select "My Team Information" from the dropdown menu. On this page, you can view the teams you are invited to or already part of.

If you already have an active team, you don't need to create a new one. To continue with a passive team, go to the "Teams I Am Part Of" section, select the passive team, and click "Copy." This will open a new team form with your old team's details, which you can update. On this screen, you can update the information to continue with the same team name or create an updated version of the team.

The screenshot shows the 'Team' page in the T3 CMS. The page has a blue header with navigation links for 'Home Page' and 'Team'. The main content area is divided into two sections: 'Team invitations' and 'Teams I Am Part Of'. The 'Team invitations' section shows 'Approximately 0 Registration has been listed.' and includes a 'Show 10 Saves' dropdown and a search box. Below this is a table with columns: INVITED TEAM NAME, INVITER, TEAM FOUNDING YEAR, TEAM ROLE, and OPERATION. The table is currently empty, displaying 'No Saves'. The 'Teams I Am Part Of' section shows 'Approximately 14 Registration has been listed.' and features a 'Create New Team' button with a plus icon, which is circled in red. Below this section is a table with columns: TEAM FOUNDING DATE, TEAM ID, TEAM NAME, TEAM FOUNDING YEAR, NUMBER OF TEAM MEMBERS, MEMBER OPERATION, ACTIVITY, and OPERATION.

If the available options do not match your situation, click the **"Create New Team"** button under the **"Teams I Am Part Of"** section to access the Team Creation screen. Make sure to fill out the form on this screen completely and accurately. Key points to note:

### Team

Team Name\*

Team's Year of Establishment\*

Type of Team\*

Choose ▼

Team Education Level\*

Choose ▼

Select the education level of your team according to the highest education level of the team members (excluding the advisor). Graduate level teams are required to declare their information according to the education level of their team members, except for the advisor.

Team School

Select the school of your team according to the school with the highest number of team members. Graduate level teams are required to declare your information according to the last school graduated by the team members, except for the advisor.

The Team Type is used to confirm whether your team is affiliated with an institution or school.

The school or institution of individual team members is not particularly important at this stage.

If your team is not affiliated with any institution or school, select the **"INDEPENDENT APPLICATION"** option for this question. Complete the remaining fields as required. For multiple-choice questions, if your preferred option is not listed, select **"Other"** and write your answer in the text box. After filling in all the required information, click the **"Complete Team Registration"** button to create your team. Once your registration is complete, you will receive a confirmation email indicating that your team has been successfully created. Additionally, you can verify your registration by checking your team's visibility on your **team page**.

Country of Participation of the Team\*

Choose

The country where the team members have participated the most can be preferred or the country for which the application was made should be preferred accordingly.

Province of Participation of the Team\*

Choose

The province where the team members have participated the most can be preferred or the province for which the application was made should be preferred accordingly.

District of Participation of the Team\*

Choose

The district where the team members have participated the most can be preferred or the district for which the application was made should be preferred accordingly.

Team Introduction Text\*

It should consist of at most 150 words

Team's Introductory Presentation File (Only PDF, Maximum 100 MB, [Click](#) for details)

Choose File

Your Role in team\*

Choose

I approve my team and team member information to be shared with the institution I am affiliated with, my team school and TEKNOFEST stakeholders.\*

Gizlilik - Şartlar

Complete Team Registration

To update the members of your team, go to the **"My Team Information"** screen and click the **"Member Actions"** button next to your team. On the **Team Members** screen, use the **"Invite Member"** section to invite members who have already registered on T3 CMS and created a profile. You can invite them by entering their **Turkish ID/Passport Number, email address, and member role**. (Make sure the provided Turkish ID/Passport Number and email address match the details registered on T3 CMS for the respective member.)
